Select the Aquadyne Bead system perfect for your needs!

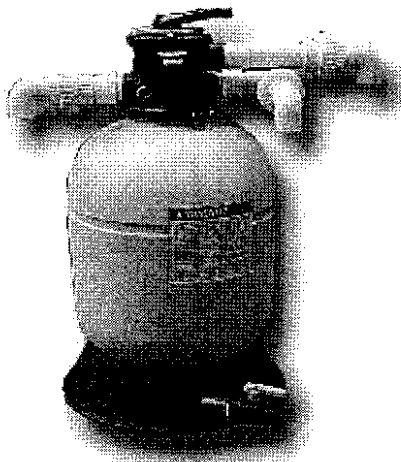

Model .60 Excellently suited for ponds up to 1200 Gallons

Operational Parameters:

Support Up To 30# of Fish
.60 cubic feet of bead media
Diameter 16" Height 33"
Maximum Pressure: 50 PSI
Average footprint with pump
and UV sterilizer: 18"D x 28"W
Avg. water to backwash 75 Gal.

Avg. Filtration Flow: 1000-2200 Gph
Min. Backwash Flow: 2800 Gph
Suggested Pump: 1Hp 2spd. or equiv.
Dynamax Air Assist Option: Compatible
Includes 3 Preassembled Sch 80
Unions and Premounted Male Adapters
Plumbing is 1.5" on all ports.

VALUE: \$675.00

Model 1.1 Excellently suited for ponds up to 2500 Gallons

Operational Parameters:

Support Up To 55# of Fish
1.1 cubic feet of bead media
Diameter 18" Height 34"
Maximum Pressure: 50 PSI
Average footprint with pump
and UV sterilizer: 20"D x 30"W
Avg. water to Backwash 125 Gal.

Avg. Filtration Flow: 1000-3000 Gph
Min. Backwash Flow: 3800 Gph
Suggested Pump: 1.5Hp 2spd. or equiv.
Dynamax Air Assist Option: Compatible
System Includes 3 Preassembled Sch 80
Unions and Premounted Male Adapters
Also Includes bulkhead for easy future
conversion to Dynamax backwash.

VALUE: \$849.00
